

9 May 2013

Congratulations to Winnipeg Regional Health Authority on your Leading Practice

A critical component of Accreditation Canada's commitment to improving quality in health services through accreditation is achieved through knowledge sharing. As part of this process, we recognize Leading Practices implemented by Canadian health care organizations as they strive for excellence in their fields. Leading Practices are noteworthy examples of high-quality leadership and service delivery that are deserving of national recognition.

As part of the 2013 Sustaining Success! Quality Conference, we are pleased to acknowledge the Winnipeg Regional Health Authority for its Leading Practice, **Internal Medicine Database**, accepted in 2012. This innovative practice makes a valuable contribution to improving quality of care and patient safety.

On behalf of Accreditation Canada's board and staff, we thank you for your commitment to providing sustainable and creative services, and for sharing your expertise with your peers. In so doing, you are helping to make health care safer and more quality focused for clients and their families.

Wendy Neuklin

President and Chief Executive Officer
